On the occasion of its centennial, the Belgische Transportbond (BTB, Belgian Transport Union) commissioned Amsab-ISH to publish a brochure with 10 milestones in the history of the BTB. Author and Amsab collaborator Donald Weber based this brochure on his bookÂ *Leven en werken in de Belgische transportindustrie, 1913-2013*Â (Life and work in the Belgian transport industry), also published on the occasion of the centennial of the BTB.

Historian Donald Weber (1967) is affiliated to Amsab-Institute of Social History and to the research group Social History since 1750 of the Ghent University. He has published on various topics, including the history of the Belgian criminal law, the early history of advertising and the anti-globalist movement. His previous book,Â *De blijde intrede van de automobiel in België 1895-1940*Â (2010), received considerable interest from public and press. Donald Weber
